Financial Statements for the Year Ended June 30, 2019

Impairment losses The aging of trade debts at the balance sheet date was:

Not past due

25.6 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The following are the contractual maturities of financial liabilities (including interest payments):

Non-Derivative Financial liabilities Short term borrowing Trade and other payables

Short term borrowing Trade and other pavables

25.7 Fair value of financial instruments

Fair value is an amount for which an asset could be exchanged or a liability settled between knowledgeable willing parties at arm's length transaction. Consequently, differences may arise between the carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Fair value of all financial assets and financial liabilities are estimated to approximate their respective carrying amount.

26 CAPACITY AND PRODUCTION

b) Interest rate risk

Interest/mark-up rate risk is the risk that value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest/mark-up rates. Sensitivity to interest/mark up rate risk arises from mismatches of financial liabilities that mature or re-price in a given period. The Company manages these mismatches through risk management strategies where significant changes in gap position can be adjusted. The long-term financing and short term borrowing arrangements have variable rate pricing that is dependent on the Karachi Inter Bank Offer Rate (KIBOR) as indicated in respective notes. At the balance sheet date, the interest rate profile of the Company's significant interest bearing financial instruments was as follows:

	Effective interest rate (%)		Carrying amount	
	2019	2018	2019 	2018
Short term borrowing	5.50%	3.00%	Rupee 1,454,504	40,800,000

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased / (decreased) profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant.

	Profit and loss Rupees
As at 30 June 2019 Cash flow sensitivity - Variable rate instruments	14,545
As at 30 June 2018 Cash flow sensitivity - Variable rate instruments	408,000

25.5 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. Concentration of credit risk arises when a number of financial instruments or contracts are entered into with the same party, or when counter parties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by change in economics, political or other conditions. Concentration of credit risk indicates that relative sensitivity of the company's performance to development affecting a particular industry.

The carrying amount of financial assets represents the maximum credit exposure. To manage exposure to credit risk, the company applies credit limits to their customers. Cash is held only with banks with high quality credit worthiness.

The maximum exposure to credit risk at the balance sheet date is as follows:

Credit Risk

	2019		20	18
	Balance Maximum Sheet exposure		Balance Sheet	Maximum exposure
	Rupees			
Trade debts	1,409,493	1,409,493	-	-

The Directors of the Company have no direct or indirect interest in this agenda.

CHAIRMAN REVIEW

It is my pleasure this report to the shareholders of the company pertaining to the overall performance of the board of director and their effectiveness in guiding the company towards accomplishing its aims and objectives.

Leather Up Limited has implemented a strong governance framework that supports an effective & prudent management of business matters, which is regarded as instrumental in achieving the long success of the company.

During the course of the financial year 2018-19, the board of directors and its sub-committees worked with a marked level of diligence and proficiency to best advice and guide the company towards achieving its potential. The board of directors as a whole has reviewed the annual report and financial statement and are pleased to confirm that in their view the annual report and the financial statement taken as a whole. Are, Fair, Balanced and comprehensive.

An annual self-assessment is carried out to determine the effectiveness and performance of the board of directors, the integral components of which include, strategic planning, composition, policies & procedures, compensation procedures and completeness of information provision. The outcome of this assessment is that the directors feel that the board of directors are engaged in strategic matters, has put in place the required controls and gets all the necessary information in a timely manner. The manner, The directors further feel that the independent directors is equally involved in all decision.

25.2 Financial risk management objectives and policies

The Company's activities expose it to a variety of financial risks: capital risk, credit risk, liquidity risk and market risk (including foreign exchange or currency risk, interest/mark-up rate risk and price risk). The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall, risks arising from the Company's financial assets and liabilities are limited. The Company consistently manages its exposure to financial risk without any material change from previous period in the manner described in notes below

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. All treasury related transactions are carried out within the parameters of these policies.

25.3 Capital risk management

The Board's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence, sustain future development of the business, safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefit for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. The Board of Directors monitors the return on capital, which the Company defines as net profit after taxation divided by total shareholders' equity. The Board of Directors also monitors the level of dividend to ordinary shareholders. There were no changes to the Company's approach to capital management during the year and the Company is not subject to externally imposed capital requirements

The companies finances its operations through equity, borrowings and management of working capital with a view to maintaining an appropriate mix between various sources of finance.

25.4 Market risk

rate risk

a) Currency risk

Foreign currency risk is the risk that the value of financial asset or a liability will fluctuate due to a change in foreign exchange rates. It arises mainly where receivables and payables exist due to transactions entered into foreign currencies

Exposure to currency risk The Company is exposed to currency risk on trade debts and sales that are denominated in a currency other than the respective functional currency of the Company. The currencies in which these transactions are denominated are the US Dollars and the Euro. The Company's exposure to foreign currency risk is as follows:

Trade debts Foreign currency deposits Advance from customer Gross balance sheet exposure

The following significant exchange rates applied during the year

Euro GRP

Sensitivity Analysis

A 10 percent strengthening of the Rupee against US Dollar, GBP and Euro at 30 June would have increased / (decreased) profit and loss account by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2016.

As at 30 June 2019 Effect in Euros Effect in GBP

A 10 percent weakening of the Rupees against the above currency at 30 June would have had the equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates or the market price due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The Company is exposed to currency risk and interest

Directors' Report

The Directors of your Company have plea for the year ended June 30, 2019.

FINANCIAL HIGHLIGHTS

(Loss) /Profit before taxation Taxation (Loss) /Profit after taxation Other Comprehensive Income Total Comprehensive Income for the Year Accumulated profit/Loss Earnings per share after tax – Rs

Company Performance

There has been continuous fall in leather garment exports and its allied products, consequently in production since the last couple of months due to problems both at the local and as well as international scenes.

It is rested on record that the historical aspects, boom and decline in the leather industry experienced over the last decade and so. The inherent cyclic nature of the fashion world, limitations of the natural raw material, extraordinary fluctuation in the prices of raw material (leather skins and bag accessories), and the higher cost of production per unit in Pakistan has immensely curtailed the potential export business in this industry. Furthermore, present conditions besieged by the leather industry globally as well as the loss of priority in terms of leather garments on the international scenes.

Despite the best efforts made by the management, the company suffered significant fall in export as well as operating profits and consequently in production during the period under review and leaves a lot to be desired.

In rupee term the exports stood at Rs. 48.015 million for the year 2019 as compared to Rs. 51.697 million of the last corresponding year. The management of the company is trying its level best to explore new markets to get back the company as operational profit making entity.

Future Out look

The recession grips in Europe in recent period and the impact of low business activity there, automatically affected the main exporting countries of leather garments and allied products. Therefore, in the first quarter of 2018-19, export orders badly hit and declined export graph.

The management is making all out efforts to secure orders and has taken steps to cut operating expenses to minimum to withstand any lean period. Subsequent to the year at the first quarter ended September, 2019, the company has securing export orders for the year 2019-20 and shipped goods over to Rs. 7.705 million.

14 CONTINGENCIES AND COMMITMENTS

Contingencies

The Company was served with the show cause notice in 1994 by the Pakistan Defence Officer's Housing Authority (P.D.O.H.A.) seeking to restrain it from continuing to use its factory premises for industrial use. The Company was granted a stay against P.D.O.H.A. in the said matter by the Honorable Sindh High Court in 1994.

The Honorable Sindh High Court has subsequently in 1998 dismissed the Civil Miscellaneous Application (C.M.A.) filed in separate suits by the P.D.O.H.A. challenging the grounds on which stay was granted to the Company. The Company does not foresee any contingency in this respect nor has therefore made any provision there against.

Commitments

Commitment for export sales as at June 30, 2019 is Rs. 9.50 million (2018: Rs. 10.00 million).

2-	Ms. Mahmooda Shah	4
3-	Mr. Jazim Shah	4

The Board of Directors of the Company has decided not to accrue directors' remuneration for the year ended June 30, 2019. The one executive director has agreed to forgo his part of the remuneration for the year under review in the interest of the company.

The statement showing the pattern of shareholding as at June 30, 2019 required under the Companies Act, 2017 and Code of corporate Governance and additional information regarding pattern of shareholding is annexed separately.

No trading in company's shares was carried out by its directors, CEO, CFO, Company Secretary, and Head of Internal Audit, other Executives and their spouse(s) and minor children.

Workers Management Relation:

The management will like to put on the record valued contribution of all members of the staff, workers towards achieving results in general and we wish to place on record our gratitude to the shareholders for their continued support in difficult times and hope to continue the same in the coming years. The worker management relation remained excellent throughout the year, which resulted in the smooth operation of your company. This is team work and we hope it shall continue in the same spirit during the coming years.

Thanks and Appreciation:

Thanks to our shareholders for their trust and support now as well as in difficult times.

By order of the Board

Khalid H. Shah (Chief Executive)

5 CHANGE IN ACCOUNTING POLICIES

IFRS-9 Financial Instrument 5.1

> IFRS -9 replaces the provisions of IAS 39 that relate to recognition, Classification and measurement of financial assets and financial liabilities, derecognication of financial instruments, impairment of financial assets and hedge accounting. The adoption of IFRS 9 financial instrument frm July 1, 2018 resuted in changes in accounting policies and adjustments to the amounts recognised in the financial statements. The new accounting policies are set out in note. 4.6 above. In accordance with the transitional provisions in IFRS 9, corresponding figures have not been restated and any adjustment to carrying amount of financial assets and liabilities were recognised in the opening retained earnings as of transition date

Classification and remeasurements

On July 1, 2018 (the date of initial application of IFRS 9) the Company's management has assessed which business model apply to the financial assets held by the Company and has classified its financial instruments into the appropriate IFRS 9 categories. The main effects resulting from this reclassification and adjustments are as follows.

Financial assets July 1, 2018	Note	Carrying amount as reported under IAS 39 July 1, 2018	Reclassification due to IFRS-9	Remeasuremen t allowance: ECL	Carrying amount as reported under IAS 39 July 1, 2018
Trade Dedts		-	-	-	-
Long term deposits		-	-	-	-
Loans, advances, deposits, Prepayme	nts	39,856,480	-	-	39,856,480
Cash and Bank balances		36,337,561	-	-	36,337,561
		76,194,041			76,194,041

IFRS 9 replaces the 'incurred loss' model in IAS 39 with and 'expected credit loss' (ECL) model. The company has deremined that the application of IFRS 9's impairment requirement at July 1, 2018 results in no additional allowance for trade receiveables

The company has adopted consequential amendments to IAS 1 presentation of Financial Statements which require impairment of financial assets to be presented in a seprate line item in the profit and loss account. However, during the year ended June 30, 2018 there was no provision for doubtful debts that could be reclassified to 'impairment loss on trade receivables' in the profit and loss account.

The following table below explains the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for each class of the company's financial assets and liabilities as at July 1, 2018.

	Original classification under IAS 39	New Classification under IFRS 9	Original amount under IAS 39	New Carrying amount under IFRS 9
Financial assets				
Trade debts	Loans and Receivables	Amortised cost	-	-
Long term deposits	Loans and Receivables	Amortised cost	-	-
Loans, Adances, deposits, prepayments & other receivables	Loans and Receivables	Amortised cost	39,856,480	39,856,480
Cash and bank balances	Loans and Receivables	Amortised cost	36,337,561	36,337,561

4.9 Taxation

The tax expense for the year comprises current and deferred tax. Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity respectively.

Current

The current income tax charge is based on the taxable income for the year calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years. Presently provision for current taxation is based on final tax regime in accordance with the provisions of section 154 of the Income Tax Ordinance, 2001,

Deferred

Deferred tax is recognised using balance sheet liability method, providing for all temporary differences between carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which temporary differences can be utilized. Deferred tax assets are reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Currently there are no deferred tax balances since the Company income falls under final tax regime.

4.10 Provisions

Provision is recognized when, as a result of past event, the company has a present legal or constructive obligation that can be estimated reliably and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Subsequently, provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

4.11 Revenue Recognition

Revenue is to be recognised in accordance with the afore mentioned principle by applying the followingsteps:

i) Identify the contract with a customer ii) Identify the performance obligation in the contract iii) Determine the transaction price of the contract

Revenue is recognised either at a point in time or over time, when (or as) the Company satisfies performance obligations by supplying the electricity or services to its customers. Any bundled goods or services that are distinct are separately recognized, and any discounts or rebates on the contract price are generally allocated to the separate elements.

4.12 Borrowing costs

Borrowing costs are recognized as an expense in the period in which they are incurred except borrowing costs that are directly attributable to acquisition, construction or production of a qualifying asset are capitalized as a part of the cost of that asset.

4.13 Foreign currency transaction and translation

Foreign currencies are translated into reporting currency at the rates of exchange prevailing on the date of transactions. Monetary assets and liabilities denominated in foreign currencies are translated into reporting currency equivalents using year-end spot foreign exchange rates. Non-monetary assets are translated using exchange rates that existed when the values were determined. Exchange differences on foreign currency translations are included in income directly.

- iv) Allocate the transaction price to each of the separate performance obligations in the contract
- v) Recognize the revenue when (or as) the entity satisfies a performance

Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelledor expired. Where an existing financial liability is replaced by another from the same lender onsubstantially different terms, or the terms of an existing liability are substantially modified, such anexchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognized in the profit and loss account. The difference between the carrying amount of a financial liability extinguished ortransferred to another party and the consideration paid, including any non-cash assets transferredor liabilities assumed, is recognized in profit or loss.

If the Company repurchases a part of a financial liability, the Company allocates the previous carryingamount of the financial liability between the part that continues to be recognized and the part thatis derecognized based on the relative fair values of those parts on the date of the repurchase. The difference between the carrying amount allocated to the part derecognized and the considerationpaid, including any non-cash assets transferred or liabilities assumed, for the part derecognized is recognized in profit or loss.

4.6.3 Offsetting of financial assets and liabilities

Financial assets and liabilities are offset and net amount is reported in the financial statements onlywhen there is a legally enforceable right to set off the recognized amount and the Company intendseither to settle on a net basis or to realize the assets and settle the liabilities simultaneously.

4.7 Balances from contract with customers

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to thecustomer. The Company recognizes a contract asset for the earned consideration that is conditionalif the Company performs by transferring goods or services to a customer before the customer paysconsideration or before payment is due.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional. Trade receivables are carried at original invoice amount less expected credit loss based on a reviewof all outstanding amounts at the year end. Bad debts are written off when identified.

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Companyhas received consideration from the customer. A contract liability is recognized at earlier of whenthe payment is made or the payment is due if a customer pays consideration before the Companytransfers goods or services to the customer.

Right of return assets

Right of return asset represents the Company's right to recover the goods expected to be returnedby customers. The asset is measured at the former carrying amount of the inventory, less any expected costs to recover the goods, including any potential decreases in the value of the returned goods. TheCompany updates the measurement of the asset recorded for any revisions to its expected level ofreturns, as well as any additional decreases in the value of the returned products.

Refund liabilities

A refund liability is the obligation to refund some or all of the consideration received (or receivable) from the customer and is measured at the amount the Company ultimately expects it will have toreturn to the customer. The Company updates its estimates of refund liabilities (and the correspondingchange in the transaction price) at the end of each reporting period.

A financial instrument is any contract that give rise to a financial asset of an entity and a financiallability or equity instrument of another entity

48 Staff Retirement Benefits

The main features of the schemes operated by the company for its employees are as follows:

4.8.1 Defined benefit plan

A defined benefit plan is post employment benefit plan other than a defined contribution plan. The company's net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in return for their service in current and prior periods. The Gratuity scheme is unfunded and covers those permanent employees and management staff of the Company who have completed prescribed qualifying period of service. Provision is made annually to cover obligations under the scheme by providing two third of last drawn basic salary of the employees for each year of service.

Past service cost is recognized immediately to the extent that the benefits are already vested. For non-vested benefits past service cost is amortized on the straight line basis over the average period until the amended benefits become vested

Impairment of financial assets

The Company directly reduces the gross carrying amount of a financial asset when the Company hasno reasonable expectations of recovering a financial asset in its entirety or a portion thereof.

The Company recognizes a loss allowance for expected credit losses on a financial asset measuredat amortized cost and through other comprehensive income, a lease receivable, a contract asset ora loan commitment and a financial guarantee contract. In case of financial assets measured at fair value thorugh other comprehensive income, loss allowance is recognized in other comprehensiveincome and carrying amount of the financial asset in the statement of financial position is not reduced.

The Company measures, at each reporting date, the loss allowance for a financial instrument at anamount equal to the lifetime expected credit losses if the credit risk on that financial instrument hasincreased significantly since initial recognition. Where the credit risk on a financial instrument hasnot increased significantly since the initial recognition, the Company measures the loss allowancefor that financial instrument at an amount equal to 12-month expected credit losses.

The Company always measures the loss allowance at an amount equal to lifetime expected creditlosses for trade receivables or contract assets that result from transactions under IFRS 15 and lease receivables.

The Company recognizes the amount of expected credit losses (or reversal), that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognized, in the profit or loss.

4.6.2 Financial liabilities

Initial recognition and measurement

All financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument.

Financial liabilities are classified, at initial recognition, as financial liabilities at amortized cost except/or financial liabilities at fair value through profit or loss, financial liabilities that arise when a transferof a financial asset does not qualify for derecognition or when the continuing involvement approachapplies, financial guarantee contracts, commitments to provide a loan at a below-market interestrate and contingent consideration recognized in a business combination.

The Company does not reclassify any of its finan credited in the statement of profit or loss.

The Company's financial liabilities include trade and other payables, loans and borrowings includingCompany overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below: Financial liabilities at fair value through profit or loss Such liabilities, including derivatives that are liabilities, are subsequently measured at fair value. Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by theCompany that are not designated as hedging instruments in hedge relationships. Separated embeddedderivatives are also classified as held for trading unless they are designated as effective hedging instruments.

The amount of change in the fair value that is attributable to changes in the credit risk of financialliability is presented in other comprehensive income and the remaining amount of change in the fairvalue of the liability is presented in profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if it eliminates or significantly reduces a measurement orrecognition inconsistency or a group of financial liabilities is managed and its performance is evaluatedon a fair value basis, in accordance with a documented risk management or investment strategy, andinformation about the group is provided internally on that basis to the Company's key managementpersonnel. The Company has not designated any financial liability as at fair value through profit or loss.

Financial guarantee contracts and commitments to provide a loan at a below-market interest rate

Financial guarantee contracts issued by the Company are those contracts that require a payment tobe made to reimburse the holder for a loss it incurs because the specified debtor fails to make apayment when due in accordance with the terms of a debt instrument. Financial guarantee contracts and commitments to provide a loan at a below-market interest rate are recognized initially as aliability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the best estimate of the expenditure required to settle the present obligation at the reporting date and the amount recognizedless cumulative amortization.

Contingent consideration recognized in a business combination These are subsequently measured at fair value with changes recognized in profit or loss. All other liabilities

All other financial liabilities are measured at amortized cost using the Effective Interest Rate (EIR)method. Gains and losses are recognized in profit or loss when the liabilities are derecognized aswell as through the EIR amortization process. Amortized cost is calculated by taking into account anydiscount or premium on acquisition and fees or costs that are an integral part of the EIR. The ElRamortization is included as finance costs in the statement of profit or loss.

Financial liabilities are initially recognized at fair value minus transaction costs for all financial liabilitiesnot carried at fair value through profit or loss. Financial liabilities carried at fair value through profitor loss are initially recognized at fair value and transaction costs are

Subsequent measurement

For the purpose of measuring financial assets after initial recognition, these are classified into the following four categories:

- financial assets at amortized cost;
- financial assets at fair value through other comprehensive income; and
- financial assets at

Financial assets carried at amortized cost are subsequently measured using the effective interestmethod. Gain or loss on financial assets not part of hedging relationship is recognized in profit or loss when the financial asset is derecognized, reclassified, through the amortization process or inorder to recognize impairment gains or losses.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and therenegotiation or modification does not result in the derecognition of that financial asset, the Companyrecalculates the gross carrying amount of the financial asset and recognizes a modification gain orloss in profit or loss.

Financial assets 'at fair value through other comprehensive income' are marked to market using the losing market rates and are carried in the statement of financial position at fair value. Net gains and losses arising on changes in fair values of these financial assets are recognized in other comprehensive income. Interest calculated using the effective interest rate method is credited to the statement of profit or loss. Dividends on equity instruments are credited to the statement of profit or loss when the Company's right to receive payments is established.

Financial assets 'at fair value through profit or loss' are marked to market using the closing marketrates and are carried in the balance sheet at fair value. Net gains and losses arising on changes infair values of these financial assets are taken to the profit and loss account in the period in which these arise.

Fair values of quoted investments are based on current prices. If the market for a financial asset isnot active (and for unlisted securities), the Company measures the investments at cost less impairmentin value, if any.

Derecognition

Financial assets are

- the contractual rights to receive cash flows from the assets have expired; or

- the Company has transferred its rights to receive cash flows from the asset or has assumed anobligation topay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either:

i) the Company has transferred substantially all the risks and rewards of the asset; or

the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

ii)

The difference between the carrying amount and the consideration received is recognized in profit or Loss.

If the Company transfers a financial asset in a transfer that qualifies for derecognition in its entirety and retains the right to service the financial asset for a fee, it recognizes either a servicing asset or a servicing liability for that servicing contract.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass through arrangement, it evaluates if, and to what extent, it has retained the risks and rewardsof ownership. When it has neither transferred nor retained substantially all of the risks and rewardsof the asset, nor transferred control of the asset, the Company continues to recognize the transferredasset to the extent of its continuing involvement. In that case, the Company also recognizes anassociated liability which cannot be offset with the related asset. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Companyhas retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

If the Company's continuing involvement is in only a part of a financial asset, the Company allocatesthe previous carrying amount of the financial asset between the part it continues to recognize undercontinuing involvement, and the part it no longer recognizes on the basis of the relative fair values of those parts on the date of the transfer. The difference between the carrying amount allocated to the part that is no longer recognized and the consideration received for the part no longer recognized in profit or loss.

Financial Statements for the Year Ended June 30, 2019

a) Financial assets at amortized cost

A financial asset is measured at amortized cost if the financial asset is held within a business modelwhose objective is to hold financial assets in order to collect contractual cash flows and the contractualterms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

b) Financial assets at fair value through other comprehensive income

amountoutstanding.

c) Financial assets at fair value through profit or loss frequently traded.

Reclassification

When the Company changes its business model for managing financial assets, it reclassifies all affected financial assets accordingly. The Company applies the reclassification prospectively from thereclassification date.

In case of reclassification out of the amortized cost measurement category to fair value throughprofit or loss measurement category, fair value of the financial asset is measured at the reclassification date. Any gain or loss arising from a difference between the previous amortized cost and fair valueis recognized in profit or loss.

In case of reclassification out of fair value through profit or loss measurement category to theamortized cost measurement category, fair value of the financial asset at the reclassification datebecomes its new gross carrying amount.

In case of reclassification out of the amortized cost measurement category to fair value throughother comprehensive income measurement category, fair value of the financial asset is measuredat the reclassification date. Any gain or loss arising from a difference between the previous amortized cost and fair value is recognized in other comprehensive income. The effective interest rate and themeasurement of expected credit losses are not adjusted as a result of the reclassification.

In case of reclassification out of fair value through other comprehensive income measurementcategory to the amortized cost measurement category, the financial asset is reclassified at its fairvalue at the reclassification date. However, the cumulative gain or loss previously recognized in othercomprehensive income is removed from equity and adjusted against the fair value of the financialasset at the reclassification date. The effective interest rate and the measurement of expected creditlosses are not adjusted as a result of the reclassification

In case of reclassification out of fair value through profit or loss measurement category to the fairvalue through other comprehensive income measurement category, the financial asset continues to be measured at fair value.

In case of reclassification out of fair value through other comprehensive income measurementcategory to the fair value through profit or loss measurement category, the financial asset continues to be measured at fair value. The cumulative gain or loss previously recognized in other comprehensiveincome is reclassified from equity to profit or loss as a reclassification adjustment at the reclassification date.

Initial recognition and measurement

All financial assets are recognized at the time when the Company becomes a party to the contractualprovisions of the instrument.

Except for trade receivables, financial assets are initially recognized at fair value plus transactioncosts for all financial assets not carried at fair value through profit or loss. Financial assets carriedat fair value through profit or loss are initially recognized at fair value and transaction costs are expensed in the profit and loss account. Dividend income from financial assets at fair value throughprofit or loss is recognized in the profit and loss account when the Company's right to receivepayments is established. Trade receivables are initially measured at the transaction price if these donot contain a significant financing component in accordance with IFRS 15. Where the Company usessettlement date accounting for an asset that is subsequently measured at amortized cost, the assetis recognized initially at its fair value on the trade debt.

A financial asset is measured at fair value through other comprehensive income if the financial assetis held within a business model whose objective is achieved by both collecting contractual cash flowsand selling financial assets and the contractual terms of the financial asset give rise on specifieddates to cash flows that are solely payments of principal and interest on the principal

A financial asset is measured at fair value through profit or loss unless it is measured at amortized cost or at fair value through other comprehensive income. However, the Company can make an irrevocable election at initial recognition for particular investments in equity instruments that wouldotherwise be measured at fair value through profit or loss to present subsequent changes in fairvalue in other comprehensive income unless these are held for trading in which case these have tobe measured at fair value through profit or loss. The equity investments of the Company held inshort term investments are classified at fair value through profit or loss because they are

An item of property, plant and equipments is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the profit and loss account in the year in which the asset is derecognized.

Impairment of non-financial assets 4.3

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of these assets may not be recoverable. Whenever the carrying amount of these assets exceed their recoverable amount, an impairment loss is recognized in the profit and loss account.

Stock in trade 44

Raw materials are valued at average cost and finished goods are valued at lower of average cost and net realizable value.

Work-in-process is valued at average cost of raw-materials including a proportionate of manufacturing overheads.

Net realizable value signifies the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to be incurred to make the sale.

Provisions are made in the financial statements for obsolete and slow moving inventory based on management's best estimate regarding there future usability.

4.5 Stores, spares and chemicals

Stores, spares and loose tools excluding items in transit are valued at lower of average cost and net realizable value. Provision is made for slow moving and obsolete items.

Items in transit are valued at cost comprising invoice values plus other charges incurred thereon accumulated to the balance sheet date.

Net realizable value signifies the estimated selling price in the ordinary course of business, less the estimated costs necessary to make the sale.

Provisions are made in the financial statements for obsolete and slow moving inventory based on management's best estimate regarding there future usability.

4.6 Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financialliability or equity instrument of another entity

4.6.1 Financial Assets

All financial assets are recognized at the time when the Company becomes a party to the contractual provisions of the instrument. Regular purchases and sales of financial assets are recognized andderecognized, as applicable, using trade-date accounting or settlement date accounting.

Classification

The Company classifies its financial assets in the following categories: at amortized cost, at fair value through other comprehensive income and at fair value through profit or loss. The classification isbased on the Company's business model for managing the financial assets and the contractual cashflow characteristics of the financial asset. The management determines the classification of itsfinancial assets at the time of initial recognition.

Financial Statements for the Year Ended June 30, 2019

- 15- The Board has set up effective internal audit functions that are considered suitably qualified and experienced for the purpose and are conversant with the policies and procedures of the Company.

Financial Statements for the Year Ended June 30, 2019

Amendment to IFRS 9 clarifies how is classified

IFRS 16 'Leases' (effective for annual periods beginning on or after 1 January 2019) is introducedduring the year that aims to set out the principles for recognition, measurement, presentation anddisclosure of leases. It introduces a single lessee accounting model and requires a lessee to recognizeassets and liabilities for all the leases with a term of more than 12 months, unless the underlyingasset is of low value. A lessee is required to recognize a right-of-use asset representing its right touse the underlying leased asset and a lease liability representing its obligation to make the leasepayments. IFRS 16 substantially carries forward the lessor accounting requirements of IAS 17 Leases. Accordingly, a lessor continues to classify its leases as operating leases or finance leases, and toaccount for those two types of leases differently. IFRS 16 replaces IAS 17 Leases, IFRIC 4 Determiningwhether an arrangement contains a lease, SIC-15 Operating Leases-Incentives and SIC-27 Evaluatingthe Substance of Transactions Involving the Legal Form of a Lease. The Company expects that such improvement to the standards will not have any material impact on the company's financial statements.

The Company expects that such im financial statements.

There are certain new standards, amendments to the approved accounting standards and newinterpretations that are mandatory for accounting periods beginning on or after July 1, 2017, butare considered not to be relevant or have any significant effect on the Company's reporting and aretherefore, not disclosed in these financial statements.

4 SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these financial statements are setout below. These policies have been consistently applied to all the periods presented except for theapplication of IFRS 15 revenue from contracts with customers (Note 4.11) and IFRS 9 'FinancialInstruments' (Note 4.6) adopted with effect from July 01, 2018

4.1 Basis of Measurement

These accounts have been prepared under 'historical cost conntion' except as otherwise disclosed in the respective accounting policies note. The Financial Statement except for cash flow have been prepared under the accrual basis of accounting

4.2 Property, plant and equipment

These are stated at cost less accumulated depreciation and impairment loss, if any. Depreciation is charged to profit & loss account applying the reducing balance method whereby the cost of an asset is written off over its useful life at the rates specified in note 4 to the financial statements. Depreciation on additions is charged from the quarter in which an asset is put to use and no depreciation charged in the quarter in which asset is disposed off.

Subsequent costs are included in the asset's carrying amounts or recognized as a separate assets, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Gains and losses on disposal of assets, if any, are taken to the profit and loss account.

The assets' residual values, useful lives are reviewed, and adjusted if appropriate, at each financial year end. The Company's estimate of residual value of property and equipment as at June 30, 2018 did not require any adjustment as its impact is considered insignificant.

Amendment to IFRS 9 clarifies how certain financial instruments with prepayment features withnegative compensation

The Company expects that such improvement to the standards will not have any material impact on the Company's

3 New and Revised Standards and Interpretations

3.1 Standards, interpretations and amendments to approved accounting standards which becameeffective during the year

The following amendments to existing standards and interpretations have been published and are mandatory for accounting periods beginning on or after July 1, 2018 and are considered to be relevant to the Company's financial statements

The Company has adopted IFRS 9 'Financial Instruments' during the year that has replaced IFRIC 9 - Reassessment of Embedded Derivatives, IAS 39 - Financial Instruments: Recognition and Measurement, IFRS 9 (2009), IFRS 9 (2010) and IFRS 9 (2013). IFRS 9 shall now govern the recognition, measurement, presentation and disclosure of financial instruments.

The Company has also adopted IFRS 15 (Revenue from contract) with customers that has replaced IAS 18 coversrevenue for goods and services, IAS 11 which covers construction contracts, SIC-31 -Revenue - Barter transaction involving advertising services, IFRIC 15 - Agreements for the construction of real estate and IFRIC 18 - Transfer of assets from customers.

The Company has adopted both the standards with effect from July 01, 2018, any change inpresentation or classification of items has been accounted for in accordance with IAS 8 AccountingPolicies, Changes in Accounting Estimates and Errors

3.2 Standards, interpretation and amendments to approved accounting standards that are not yet effective

The following standards have been issued by the International Accounting Standards Board [IASB], which are yet to be notified by the Securities and Exchange Commission of Pakistan [SECP] for thepurpose of their applicability in Pakistan. The Company intends to adopt these standards, if applicable, when they become effective. Standard or Interpretation Effective Dete

Standard or Interpretation		Effective Date
		(Period beginning on or after
IAS 23	Borrowing costs	January 1, 2019
IFRIC 23	Uncertainty over Income Tax Treatments	January 1, 2019
IAS 19	Employee Benefits [Amendments]	January 1, 2019
Conceptual Framework in IFRS		
Standards [Amendments]		January 1, 2020
IAS 1 and IAS 8 [Amendments]		January 1, 2020

Amendments to IAS 19 specify the basis for determining the current service cost and the net interestexpense / income for the period between a defined benefit retirement plan amendment, curtailmentor settlement and the end of the reporting period.

The IASB has published a revised Conceptual Framework for Financial Reporting that will be used to develop new Standards and Interpretations in future. In particular, the definitions of assets and liabilities as well as the guidance on measurement and derecognition, presentation and disclosurewere amended. This has not resulted in any technical amendments to current Standards to date. The amendments merely update the references to the Conceptual Framework in existing Standards. The Conceptual Framework itself is not subject of the endorsement procedure.

Amendments to IAS 1 & IAS 8 clarify the definition of "material". Besides additional explanations, the definition of "material" in the Conceptual Framework as well as all Standards was aligned with the central definition no anchored in IAS 1.

The Company expects that such improvement to the standards will not have any material impact on its financial statements in the period of initial application, except for IAS 19.

The following standards and amendments to published accounting standards were not effective during the year and have not been early adopted by the Company. The Company intends to adoptthese standards, if applicable, when they become effective. Effective Date

		Effective Date

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2017

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2017 (the Regulations) prepared by the Board of Directors of Leather Up Limited (the Company) for the year ended June 30, 2019 in accordance with the requirements of regulation 40 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks. The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2019.

Further, we highlight below instances of non-compliance with the requirements of the code as reflected in the notes in the statement of compliance.

The registered office and its production facilities are located at plot # 23/C, 15th Commercial Street Phase II Extension Defence Housing Authority, Karachi.

2 BASIS OF PREPARATION

2.1 Statement of Compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- notified under the Companies Act, 2018; and
- Provisions of and directives issued under the Companies Act, 2018;

2.2 Basis of measurement

stated.

2.3 Functional and presentation currency

Company.

2.4 Use of estimates and judgments

The preparation of the financial statements in conformity with approved accounting standards requires the management to make the judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods. Areas where various assumptions and estimates are significant to the financial statements or where judgments were exercised in application of accounting policies are as follows:

a) Provision for taxation b) Provision for obsolete inventory c) Residual values and useful lives of items of property, plant and equipment d) Provision of slow moving and obsolete stores and spares e) Provision for staff gratuity

IQBAL AHMAD ABDAN (FCA)

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of Leather Up Limited (the Company), which comprise the statement of financial position as at June 30, 2019, and the statement of profit or loss, the statement of compre--hensive income, the statement of changes in equity, the statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our Knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to explanations given to us, the statement of financial position, statement of profit or loss, statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2019 and of the profit the comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our

opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF LEATHER UP LIMITED

ABDAN & CO.

Following are the Key Audit Matters:

Key Audit Matters Recognition of Revenue (Refer to note 4.11 and 15 to the financial statements) The company is engaged in the manufacturing and export of leather garment products. The Company recognized revenue from the Export sales of leather garment products are of Rs46.21 million during the year ended 30 June 2019. We identified recognition of revenue as a key audit matter because revenue is one of the key performance indicators of the Company and gives rise to an inherent risk that revenue could be subject to misstatement to meet expectations or targets and that during the year IFRS 15 "Revenue from contracts with customers" became applicable to the Company which requires an entity to recognize revenue to reflect the transfer of goods and services for the amount it expects to receive ,when the control is transferred to the purchaser.	How the matter was addressed in our audit. Our audit procedures to assess the recognition of revenue included the following: Obtaining an understanding of the process relating to recognition of revenue and assessing the design, implementation and operating effectiveness of key internal controls over recording of revenue; Comparing a sample of revenue transactions recorded during the year with sales orders, sales invoices, delivery orders and other relevant underlying documents; Comparing a sample of revenue transactions recorded around the year end with the sales orders, sales invoices, delivery orders and other relevant underlying documentation to assess if the related revenue was recorded in the appropriate accounting period; Comparing the details of a sample of journal entries posted to revenue accounts during the year, which met certain specific risk-based criteria, with the relevant underlying documentation; and Assessing the impact of IFRS 15 "Revenue from Contracts with customers" on the Company in respect of revenue recognition.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continues a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Our opinion on the financial statements does not cover the other information and we do not express any form

ABDAN & CO.

 Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepr--esentations, or the override of internal control.

 Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

• Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

 Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

 Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonable thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.
